THURSDAY, NOV. 2,

The restoration of the Queen to the throne Mr. Blount never contemplated by anything he said in his report, and the administration would not favor such a course, even if he did .- New York Herald.

#### THE REAL MEANING

An esteemed contemporary argue that the course of Mr. Blount in assuring the Hawaiian Government that the United States would uphold it in a refusal of the franchise to the Japanese, is an interference in our domestic concerns that most justify graver interfer-

This might seem plausible if the question was wholly one of home politics but as it is the Japanese Gov. ated Press agent here and appeared in ernment, and not the Japanese resident and labor element, that is pres sing the suffrage issue, the problem becomes international and diplomatic. Therefore, instead of meddling with Hawaiian local concerns when it marked out its policy, the Government represented by Mr. Blount stood by to prevent Japan from interfering with them-a distinction, as one might say, which involves a weighty difference.

The Japanese incident must be regarded as one that shows how acute and far reaching is the concern felt by Mr. Cleveland for the continued welfare of American interests on these Islands-interests which some foolish folk think that he will hand over in irons to a monarchy which had once imperilled them by an assault on the constitutional safeguards of good government.

#### SOME FUTURE BENEFITS.

The interest which the Atchison Topeka and Santa Fe Railroad Company is taking in Hawaii indicates what might be expected of other great transit corporations providing the Islands were under the American flag. It is the prospect of such a change in the political status, we are assured, strawberries, also of the first quality. which brings an agent of the Santa Fe here; and as that prospect grows it is never varied, even if my indiscretion certain that all the railway and steam ship companies doing business on the coast and in these waters will vie with each other in building up and profiting by Ha with distress above her hollow cherks waiian bound travel and general Island trade. In point of fact, by annexation Hawaii would become the Mecca of American tourist pilgrimage and commercial enterprise. The leisure classes are tiring of Florida and would be glad to get a change from California; and as for business, lack of confidence at home has locked up so much investment money that the prevalence of a boom here would be a powerful magnet to draw capitalists where they could use idle funds in interest-bearing bird either living or extinct. It has SALE OF GOVERNMENT LAND AT investments. All that is needed is been extinct for some time, and only the assurance of continued peace, stable laws, constitutional methods and the protection of life and property which the Stars and Stripes would assure and imply.
